

International Marine Minerals Society

December 31, 2002

Ms. Dorothy Taylor Moore
13000 Grubstake Gulch
Austin, TX 78738

Dear Dorothy:

On behalf of the Executive Board and membership of the International Marine Minerals Society, I would like to bestow upon you an honorary lifetime membership in the Society. It is indeed our honor and pleasure to present you with this lifetime membership for the tireless leadership and support that you and Robbie provided in establishing a viable and dynamic marine minerals organization. The International Marine Minerals Society and Underwater Mining Institute have provided invaluable forums for the discussion of critical issues related to marine minerals, mining, and technology. We are proud to have the Moore name attached to our highest honor, the Moore Medal.

We look forward to having your continued presence and guidance in all our activities and send you our congratulations.

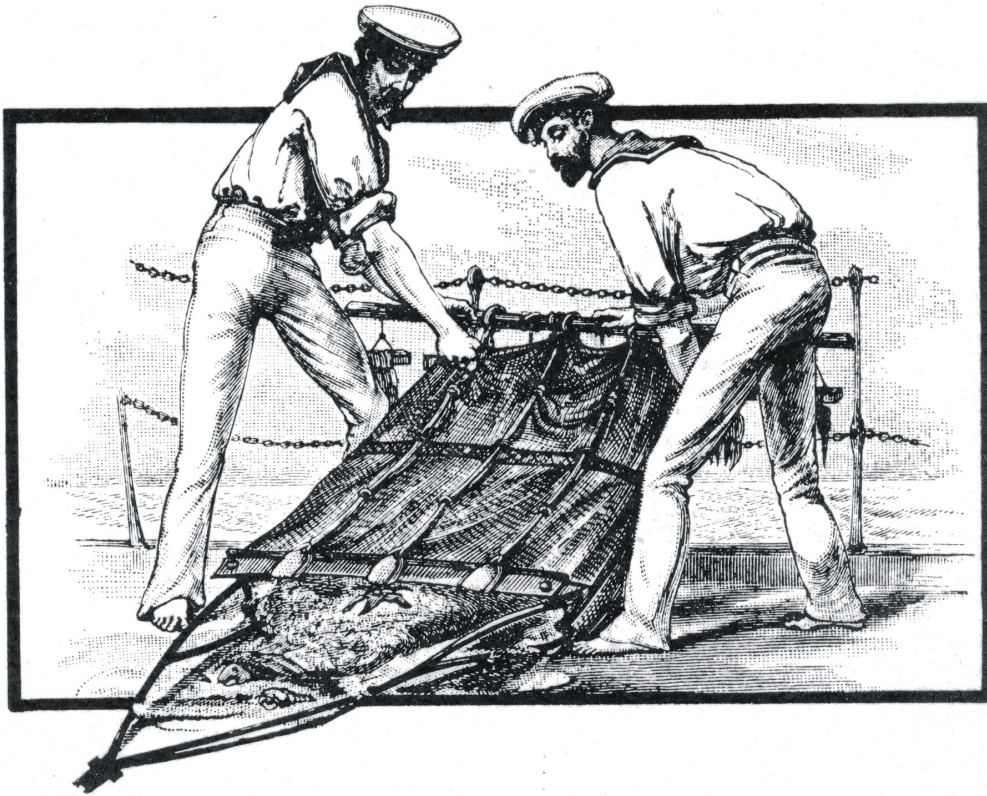

Yours Sincerely

James R. Hein
President
